

# August Events Bulletin

## World Cancer Support Month

Throughout August, we will be raising awareness and showing support for those affected by cancer. Unfortunately, as a nursery community, we have been touched with cancer on a personal level either by someone we know directly or through someone else. The teachers will be reading age appropriate books that gently introduce the topic of health and caring for others. The children will create supportive and encouraging artwork to display in our nursery.

## Traffic Awareness Day - Tuesday 13th August

On **Traffic Awareness Day**, we will educate the children about road safety with fun and engaging activities: teaching basic road safety rules, making traffic signs and signals practicing crossing the street safely with a mini traffic setup and many more.

## Monday 19th August - Raksha Bandhan

**Raksha Bandhan** is a popular Hindu and Sikh festival that celebrates the bond between brothers and sisters. Usually, it involves the sister tying a thread around her brother's wrist.

We will be sharing stories about Raksha Bandhan and its significance. Children will make Rakhi bracelets to take home. The nursery teachers & children will be enjoying traditional Indian music and simple dance activities.
